Microsoft MD-101 Managing Modern Desktops

Microsoft MD-101 Managing Modern Desktops

Microsoft 365 Certified: Modern Desktop Administrator Associate

Официален Курс (MOC) Microsoft MD-101 Managing Modern Desktops за Microsoft 365 Certified Modern Desktop Administrator Associate

---

За Курса

- In this official Microsoft three-part Managing Modern Desktops course, you'll learn how to plan and implement an operating system deployment strategy. This course will help you understand the various methods available, the scenarios they're suited for, as well as how to deploy Windows using modern methods. You will also be introduced to key components of modern management and co-management strategies. You'll examine what it takes to incorporate Microsoft Intune into your organization

and how to use it to manage modern desktops and devices. We will cover authentication, identities, and access, as well as about how to protect these categories. You will be introduced to Azure Active Directory and learn how to use Microsoft Intune to protect devices and data with compliance policies. Finally, this modern desktop management course will cover key capabilities of Azure Information Protection and Windows Defender Advanced Threat Protection and how to implement these capabilities.Plus, this course also prepares you for Microsoft exam MD-101, one of two exam requirements for Microsoft 365 Certified: Modern Desktop Administrator Associate certification.
