Microsoft Official Course (MOC)

MS-200 Planning and Configuring a Messaging Platform

за Microsoft 365 Certified Messaging Administrator Associate ☒ ☒

За Курса (About this Course):

- This course introduces you to the world of hybrid messaging. You will learn how to deploy a hybrid environment for your Exchange organization and how to migrate mailboxes to Exchange Online. You will begin by examining available mailbox migration options, and then focus on planning for a hybrid deployment. You will learn how to implement and troubleshoot a hybrid deployment.Also, you will learn about the different messaging-related security and compliance service configurations and

settings with Exchange Server and Exchange Online. You will begin by examining the fundamentals of message hygiene with Exchange Online Protection and Exchange Advanced Threat Protection, as well as connection and spam filtering with Exchange. You will then examine messaging compliance solutions, such as retention and data loss prevention policies, as well as audit log investigations and eDiscovery search mechanisms from the messaging compliance perspective. You will learn how to plan a proper deployment and how to perform the basic implementation process for each solution. You will conclude the course by examining how to manage permissions that are assigned to user and admin roles.
