MS-720: Microsoft Teams Voice Engineer

MS-740: Troubleshooting Microsoft Teams (beta)

(4 days)

About this Course:

- 4 Days
- Instructor-led training
- Intermediate
- English

Candidates for this exam are Microsoft Teams Voice Engineers that plan, design, configure, maintain, and troubleshoot integrated communications solutions at an organization. They must be able to translate business requirements into technical architecture and designs for communication solutions.

Candidates are familiar with

telecommunication technologies and have experience with Microsoft Teams, Microsoft 365, and PowerShell. They must be able to deploy and configure Microsoft Teams Phone with PSTN connectivity through Direct Routing, Operator Connect, and Microsoft Teams Calling Plans. Candidates also manage devices certified for Microsoft Teams, audio/video conferencing, and voice migration.

Candidates collaborate with telephony providers and third-party vendors to enable advanced voice features in Microsoft Teams. They also work with administrators for other workloads, including networking, identity, licensing, security, and compliance.
